END USER CERTIFICATE

Project: Overhauling and Maintenance of Volvo Penta TAD1210GE Diesel Engine located at Asha Agencies premises No. 35, Edward Lane, Colombo 03.

This is to certify that Mermaid Solutions (Pvt) Ltd, No. 73, MJC Fernando Mawatha, Idama, Moratuwa, Sri Lanka, has successfully carried out the overhauling, maintenance, testing, and recommissioning of our diesel engine.

ENGINE DETAILS

Engine Manufacturer: Volvo - Penta
Engine Model: TAD1210GE
Engine Type: Industrial / Power Generation Diesel Engine
Application: Prime / standby power generation
Installation Location: No. 35, Edward Lane, Colombo 03.

Scope of Work

Complete inspection, dismantling, replacement of worn and defective components, fuel system servicing, cooling and lubrication system refurbishment, electrical and control system verification, calibration, load testing, operational performance testing, and final commissioning.

All spare parts used for the overhaul and maintenance were supplied as genuine OEM or OEM-approved components and installed in accordance with Volvo Penta technical standards and service manuals.

OPERATIONAL PERFORMANCE CONFIRMATION

Following completion of the works, the engine has been operating satisfactorily, reliably, and within designed performance parameters without abnormal vibration, overheating, leakage, or operational deviation.

Registered No. PB 541
Pership House (ONE)

TECHNICAL CAPABILITY CONFIRMATION

We further confirm that Mermaid Solutions (Pvt) Ltd possesses strong technical expertise, qualified and experienced engineering manpower, and the capability to execute complex diesel engine overhauling and maintenance works to high engineering standards.

Mermaid Solutions utilized specialized tools including precision measuring instruments, calibrated torque tools, lifting and alignment equipment, diagnostic and testing instruments, and OEM-recommended service procedures to ensure accuracy, safety, and quality of workmanship.

Their systematic methodology covering dismantling, inspection, defect rectification, reconditioning, precision assembly, testing, commissioning, and documentation demonstrates a high level of engineering discipline and quality control.

END USER DECLARATION

We confirm that the above engine overhaul and maintenance were carried out strictly for Pership Company operational use only and that all supplied materials and services were utilized solely for this project and not for resale, transfer, or commercial distribution.

This End User Certificate is issued at the request of Mermaid Solutions (Pvt) Ltd for official tender submission and reference purposes.

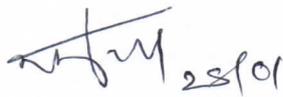

For and on behalf of the End User,
